....The Power of Brilliance

CII Institute of Logistics

FROM CAMPUS TO CORPORATE

ENGINEERING SUPPLY CHAIN MANAGEMENT

An Industry Certification in Supply Chain Management

Judged by what you can do — not just what you know.

Your degree gets you shortlisted. This certification, built with CII Institute of Logistics, gets you hired — with the analytics, automation and global logistics capability companies are actually recruiting for.

WHY CHOOSE THIS PROGRAM

Learn with industry. Not just about industry.

Industry-Built Curriculum
Co-designed with CII Institute of Logistics — every module mapped to real supply chain roles.

Future-Ready Skills
AI · Digital Supply Chains · Power BI · Python · Data Analytics · Industry 4.0

Real-World Learning
Live projects, business simulations, case studies and direct industry mentoring.

Career Confidence
Resume building, interview readiness and one-on one career mapping.
