PRODUCT DESIGN & MANUFACTURING

INNOVATE. DESIGN. MANUFACTURE.
CREATE WHAT TOMORROW NEEDS.

A hands-on programme that combines creative design thinking with advanced engineering tools to transform ideas into market-ready products.

WHAT YOU WILL MASTER

- Design Thinking & Conceptualization
- 3D CAD Modeling (SolidWorks/ Creo/NX)
- DFM & Tolerance Analysis
- Prototyping & Product Testing
- Manufacturing Processes
- Product Lifecycle Processes
- Product Lifecycle Management

- Industry Projects & Case Studies
- Advanced Labs & Software
- Expert Faculty from Medini
- Placement Assistance

DURATION
9 Weeks

INTERNSHIP
12 Weeks

MODE
Offline / Hybrid

ELIGIBILITY
Engineering Graduates / Final Year Students

DESIGN TODAY. MANUFACTURE TOMORROW.

TURN YOUR IDEAS INTO REAL-WORLD IMPACT.
